

STRATO INVOICING

ADD-ON MODULE FOR EASY INVOICING

The Invoicing module is a powerful add-on to Strato enabling you to create various invoices and customise invoice templates to your preferences. With its list of relevant features, the Invoicing module lets you gather all your clinic tasks in one system, eliminating the need for an external invoicing system.

KEY FEATURES

- Specify different VAT rates
- Customise invoice and credit templates
- Specify individual prices and reimbursement
- Clear overview of invoices, loans and credit notes
- Invoice both the client and 3rd party instances

PLEASE NOTE

The Invoicing module can only be used together with the Stock module in Strato.
